Indonesia Water Portal

Commercial proposal

Indonesia Water Portal is an online gateway for local and international professionals to read the latest development about Indonesia water and maritime sector, updates on events, programs and projects, access reports and studies, develop business opportunities, and the latest product coverage.

**Accessible
24/7**

**Diverse
members**

**Growing
visitors**

**Monthly
newsletter**

**Support all
devices**

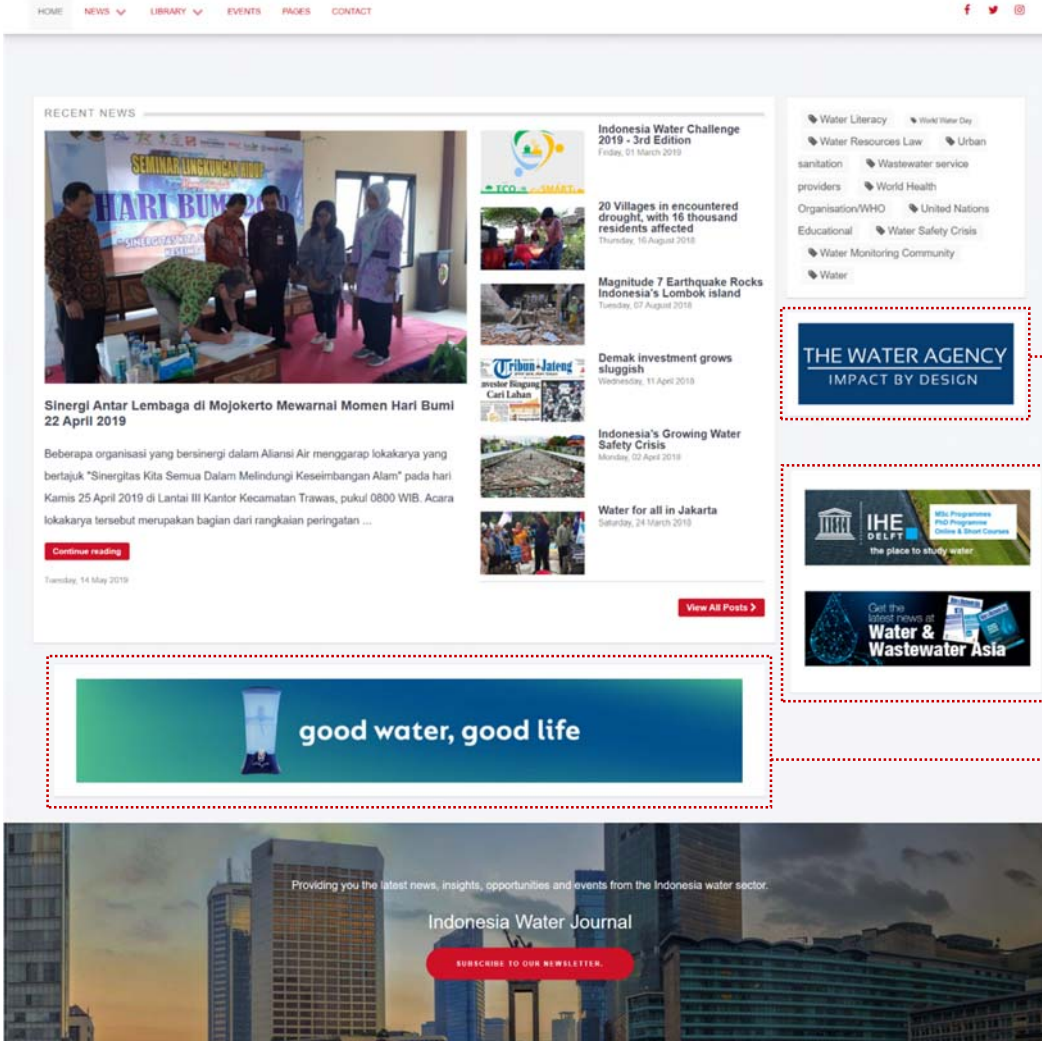

As an online platform with locally-rooted content, Indonesia Water Portal is the right commercial platform for new water and maritime companies/organizations that are keen to seek new opportunities in Indonesia, or existing companies/organizations in Indonesia that are interested in developing/promoting their own proposition further towards new prospects.

We have two commercial programs to serve customers: **Advertorial** and **Banner**. Both of which will be explained on the next page.
